Your Vibra-Doser comes unassembled with Steel Coated Grate, Vibrator Unit and Zip Ties.

1

Overlap the Grate so that 1 edge is up and 1 edge is down.

2

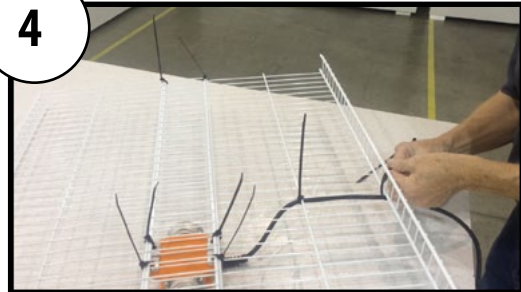

Secure both side of the grate using 4 zip ties. 2 zip ties per side.

3

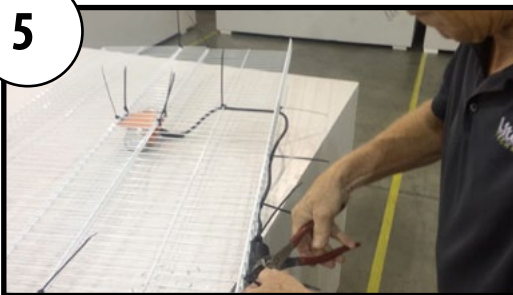

Remove the vibrator unit from the box and center it below the grate. Secure it with 4 zip ties

4

Secure the cord end using the zip ties  
**IMPORTANT:** Secure cord to the left side of upright angle of the grate.

5

Snip the ends of the zip ties

6

Ready to plug and play.  
Will work with 110 DC Inverter.  
Runs off of vehicle or skid loader!
