

SCAFFOLD BRACKET

PART # 4425

LiteForm's Nylon Scaffold Brackets

Engineered for strength and durability, LiteForm scaffold brackets are made from robust nylon, ensuring reliable support during construction.

Designed to integrate seamlessly with LiteForm's steel bracing studs, these brackets slide easily into the pre-formed holes in the studs for fast setup. Each bracket includes a convenient pocket for a diagonal 2x4 wood brace, adding stability, and an additional pocket to accommodate a railing assembly, enhancing safety and versatility. LiteForm scaffold brackets deliver a practical and sturdy solution for your construction scaffolding needs.
